

HANDS-ON CLAY-WORKSHOP

Urban Future.

Stuttgart 23

KAIROS LAB

Within the framework of Urban Future Conference Week (UFC23)

With the aim of raising awareness of the contribution of the construction sector to climate change and the urgency of switching from cement to other natural and environmentally friendly materials such as clay, this workshop will include theoretical and practical contributions on the strengths, properties and possibilities of this material. It will also present the different techniques and additives used in earthen construction. Best practice projects in traditional and modern applications from the global south will be showcased.

Number of Participants: 20

Participation fees are 50 Euro (for Students 20 Euro)

Registration via Email: ezbet13@gmail.com

„EZBET e.V. would be pleased to welcome you at our workshop! Take the chance to meet our experts from Egypt and register NOW!“
